[A Brief History Of Major Oil Companies In the Gulf Region](#)

## Notes and explanations

**My added note on 08.05.2019:** This page will clearly show the connection and networking between the following companies that were in one way or another involved in a very destructive scheme of my life: BP-British Petroleum, American Texaco, INC (**merged with Chevron**), Dutch Shell and American Chevron and their cooperation and control of Jordan, Lebanon, Syria, Kuwait, Saudi Arabia, UAE and Oman, and each of these so-called Arab countries were also involved directly or indirectly and very destructively in my life, as described in my complaint pages! **End of My added note on 08.05.2019.**

### **Note added on 27.07.2021:**

After I published this page, and in around the begin of the year 2020, the university of Virginia has removed this page from the original link where I copied it from:

<http://www.virginia.edu/igpr/APAG/apagoilhistory.html> (**information page was removed by the university, however a copy of the content is below**)

Therefore, I am asking myself: What are they hiding and what are they afraid of?

Therefore, I continued to search and below is the result!

### **Note about page Page-1 (this page)**

I found and downloaded on 08.05.2019 a web page that was titled: “A Brief History Of Major Oil Companies In the Gulf Region” Compiled By Eric V. Thompson”. The source of this page was <http://www.virginia.edu/igpr/APAG/apagoilhistory.html> (**information page was removed by the university, however a copy of the content is below**) = University of Virginia = adjacent to Washington D.C. = very possibly Donald Trump White House Administration (**alias a puppets of the English royal families and the Rockefeller families**) ordered removing it and therewith sometimes in the begin of 2020 it was removed, and it was nowhere to be found

### **Note about Page-2 (click here to see page-2)**

Today 27.07.2021 I found the page: “Oil: Major Oil Companies in the Gulf Region”

Compiled by Eric V. Thompson from <https://www.jewishvirtuallibrary.org/major-oil-companies-in-the-gulf-region> and if it is removed then you can view a copy of it here: [Oil-Company-Histories-Page-2](#)

The difference between the two pages is that they removed the vital date information, in matter of fact there is no dates whatsoever in the second page.

Also, today 27.07.2021 I found a book titled “**Historical Dictionary of the Petroleum Industry**” written by Marius S. Vassiliou. I found this book on Google-Book Play under the below link, yet this book cost 107.32 Euro, but you can read the first 24 pages out of 500 pages for free or buy the entire book:

I did not buy it. **End of note added on 25.07.2021.**
