The text below is temporary until I get to it!

(This sentence was added on 21.06.2021: I believe the below text is enough and is clear to understand and there is no need to add any more words, which means this page is completed!)

Shame on you all of you, that I am complaining about within these complaint pages. You should use your intelligence to create a better, safer and livable world and not a world full of fear and slavery where over 70% of the people worldwide cannot afford the living, while they are being forced to live in fear of being punished for something that you do, such as you perform wars to enrich yourself that keeps you going in circle like a dog that is trying to reach his tale, your circle of enslaving others and damaging their lives to enrich yourself over and over and over again, while forcing the majority of people to live in fear of the current war and even of the next war that yet to come and it will come sooner or later to enrich yourself unless you stop voluntarily before someone stops you very violently, and trust me, it is not going to be me, it is going to be those who you forced to live in fear for so long and they will explode in your faces!

Consider this as a friendly reminder of your future!
